**I. PURPOSE**

**To implement and establish responsibility for the Kansas State Immunization Law.**

**II. PERSONNEL AFFECTED**

**A. Building principals**

**B. Nursing Services Staff**

**C. New students who have not previously attended a public school in Kansas**

**III. RESPONSIBILITY**

**Each Topeka Public Schools principal is responsible for enforcing the Kansas State Immunization Law and for follow-up of incomplete immunizations.**

**IV. PROCEDURE**

- A. The principal shall require each student entering school or preschool for the first time and such other students to present certification from a licensed physician or health department that such student has received or is in the process of receiving tests and inoculations deemed necessary by the secretary of health and environment.**
- B. As an alternative to the required Kansas Certification of Immunization, a student shall present:**
- 1. An annual written statement signed by a licensed physician stating that based on the child's physical condition the tests or inoculations would seriously endanger the life or health of such child, or**
  - 2. A written statement signed by a parent or guardian that the child is an adherent of a religious denomination whose religious teachings are opposed to such tests or inoculations, or**
  - 3. A written statement signed by a licensed physician or health department that such tests or inoculations are in the process of being received and the student has received the most recent appropriate inoculations in all required series.**

## STUDENT IMMUNIZATION

Failure to timely complete all required series shall be deemed noncompliance.

- C. In accordance with the statute, the secretary of health and environment has designated the following diseases for which immunizations are required of all new school entrants:

- E. The parent(s) or lawful custodian(s) of such students who have not received complete immunization against the listed diseases shall be informed on or before May 15 of each school year, of the requirement to complete the immunizations required by the Kansas School Immunization Law. If such requirements are not met, within 30 school days of the student's enrollment, the building administrator shall notify the parent or lawful guardian in writing that the student may not attend school until the requirements have been met. Such notice shall contain the following information:

## **STUDENT IMMUNIZATION**

- 1. The reason for the exclusion;**
  - 2. A statement that the exclusion will continue until the student is in compliance with the statutory requirements;**
  - 3. Information on where the vaccinations can be obtained; and**
  - 4. Notice of the right to a hearing, upon request of the parent.**
- F. Parents are responsible for updating the immunization information on the Student Information Record at enrollment each year. Records of immunization shall be maintained on forms and certificates prescribed by the Secretary of Health and Environment.**
- G. Any student who has not presented evidence of immunization shall be excluded from school for any period of contagion if there is an outbreak of a disease for which the student has not been vaccinated.**
